I-Tn Giordano 144	Gluck, Christoph Willibald		Tetide			
Notes						
<p>P59B appears in a variant, where the letter S is placed slightly more to the right. Unidentified paper: Falling star (6 points) above FF in a jagged frame; 3 crescents. The paper has a stable rastrum, which seems to fit 10/189C. However, the rastrum is often upside down and the total span varies by approximately 0.5mm</p> <p>Apart from the choir in gathering 3, the changes between WK60B and WK62A always occur in the middle of the number.</p>
